QUOTATION FOR E-COMMERCE WEBSITE DEVELOPMENT

From: Arbeit Technology
For: Azaan Halal

Date: 23 August 2026

Based on your requirements, we understand that you require a modern and user-friendly **online grocery store** where customers can browse products, explore categories, view product details, and place orders conveniently online. The platform will also include an admin panel to manage products, categories, orders, customers, inventory, and overall store operations.

The proposed solution will provide a responsive and scalable e-commerce platform designed to deliver a smooth shopping experience while making day-to-day business management simple and efficient.

Website Type: E-commerce Website

E-COMMERCE FEATURES:

- Complete Online Store
- Product Category Management
- Product Listing
- Product Variations (Color, Storage, Size, etc.)
- Shopping Cart & Easy Checkout System
- Wishlist Functionality
- Coupon & Discount System
- Loyalty point and wallet system
- Order Tracking System
- Customer Account Management
- Stock & Inventory Management

TECHNOLOGY STACK

- Frontend : Next.js
- Backend : Node.js & Express.js
- Database : MongoDB
- Responsive Framework: Mobile Optimized Design
- Security: SSL Ready
